

Project Manager

We have an opportunity for an experienced Project Manager to join our company where the primary focus will be to provide visible leadership, direction and insight in the safe delivery of office, commercial and retail CAT A and CAT B fitout and refurbishment packages to clients in Ireland and the UK.

Projects can range anywhere from €100k – €5million.

Location: Ireland and UK

Roles and Responsibilities:

- Manage the client relationship from start to finish
- Managing between multiple projects at any given time
- Planning and Programming projects and updates as required
- Controlling all commercial aspects of each project from inception through to completion
- Implement all statutory regulatory and company requirements
- Ensure compliance with H&S plan & Environmental plan.
- Head up client meetings and associated issues
- Liaising on all levels to ensure effective communication is always maintained
- Motivating and inspiring teams
- Ensure all projects are completed on time, within budget and to the highest possible standard
- Following all projects through all stages from start to hand over through to final accounts

About you:

- Applicants must have a strong background in construction project management, and must have proven experience in large scale, high value CAT A/CAT B fitout and refurbishment projects.
- Self-motivated individual that is autonomous in your role, whilst being able to motivate a team of subcontractors
- Capable of managing all aspects of the works, be dynamic and eager to drive projects forward.
- High level of organisation and ability to manage multiple projects simultaneously
- An effective communicator with a positive, passionate and engaging approach.
- Good team and analytical skills and have solid experience managing commercial, retail and office fit-out and refurbishment projects in the Irish/UK market

On offer is an excellent package and attractive benefits.
